Introduction

Saturn is the great timekeeper of astrology, its 30-year cycle slowly marking out the creation and completion of the physical form. In esoteric astrology time is said to stop at the age of thirty when Saturn completes its first cycle and turns to repeating itself. From thirty years onward it is said that we begin moving beyond the grasp of time into eternity. It is said that the first thirty years we spend building our personal space capsule, the physical body. At any rate, Saturn is a key planet to note in our birth chart.

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years from an astrological perspective. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

Saturn – First Cycle

This configuration points to a fairly easy childhood (although perhaps a little inward-oriented after the age of four) up until around the eleventh or twelfth year, which represents some sort of turning point, at which time you will begin to become more serious and inner-directed. This could mean that your adolescence is somewhat more lonely and less socially oriented or active than the average.

This inner time of exploration lasts until you are about eighteen or nineteen years of age. At that time, you will change quite suddenly as you proceed to take hold, discover yourself, and become more outward -- in a rather short time. Your sense of confidence will build, and the years of introspection will pay off as you increasingly begin to reach out. The years from eighteen through twenty-five or twenty-six may be ones of hard work, but will bring continued gains in self-confidence. From the twenty-sixth year, your real climb to

fame and fortune will commence. Your 30s and 40s will be very good and successful years.

In summary: You will be a more serious youngster than most, and this inward searching and concern will occupy you until around your eighteenth year, after which you will very quickly discover yourself in a more outward or social way, and rapidly make up for lost time, moving into a time real outward and social success.

Saturn – Second Cycle

Tina Turner
 02nd Saturn Cycle
 Dates and (Age)
 on Angles

In the second Saturn cycle we are each born free from the grip of time. Our physical body is complete; we have reached our prime, sustain for a while, and then gradually decline. And although our physical body has ceased to grow, our mind continues to expand beyond those physical limits. In a very real sense, we are all born again, but this time the birth is spiritual not physical.

It is during this second Saturn cycle that we learn to control ourselves mentally (and emotionally), manage our lives, and build a career. It is during this time that we are in our majority that success in any endeavor is

most possible. In the inner teachings it is said that we spend our second thirty years repairing the damage we made (without realizing it) emerging from our first thirty years.

This second cycle of Saturn is the most opportune for physical success as all roads lead up to us from youth and away from us in old age. We stand at the crossroads, the pinnacle or prime of life and can see both ways.

Saturn – Third Cycle

Tina Turner

01-18-13 (73)
 03-22-13 (73)
 10-07-13 (73)

In this third and (for most of us) final Saturn cycle our physical form is definitely in decline but our spiritual horizons only continue to broaden. It is said in the esoteric tradition that in this cycle we can experience becoming an active part of the creative force in life itself, not just conceptually, but actually. We are able to work with those younger than we to shape and direct their activities. Although we begin to retire from the physical scene, inside we never age but are as young as we can remember.

It is during this time that any mental training, patience, and self-control really pay off. We are now very much

the fruit of our own discipline and experience; it is during this time that we are very much out of the body more and more of the time. If we have no discipline we are somewhat at the mercy of the winds of change, but whatever control and mastery we have achieved now works with and for us to complete our life. We can feel very creative and part of the creative forces that are all around us.

Saturn Transits Midheaven - Jul 27, 2028, Sep 18, 2028, Apr 04, 2029
The dates at the top of the chart pertain to the following:

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter, toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

Saturn on Midheaven

Saturn Conjunct Midheaven Transit to Natal

This is a high-water mark as far as outward and social success is concerned, a kind of peak after which you should turn your attention to consolidating what you have set in motion up to this point. A more inward time is to come in a few years.

Ideas of Authority

Saturn Conjunct Sun Transit to Natal

Your practical and organizational skills are at their clearest. Perhaps more of an internal change than one that is flashy and outward, this shift in emphasis marks your moving out of the past, out of whatever obligations and responsibilities you have to do, and onto a future of greater control and mastery on your part. In other words, you will be better able to handle things, to exert control over your own affairs, and direct your future than you have up to now. This is the beginning of a more future-oriented time.

Ideas of Authority

Saturn Conjunct Sun Transit to Natal

Your practical and organizational skills are at their clearest. This is a more subtle change, moving from trying to expand your control, and to perhaps better organize areas of your life, to trying to find a solid base on which to stand and stabilize things. More often than not this involves a swing toward the past, toward what works or has worked, and away from anything more speculative or insecure. Security is the key here, and going against that will result in even greater instability.

This concludes your Life Landscape Report, the chronological movement of Saturn (the sequence of time) through your natal chart.

Most astrologers would agree that the 30-year cycle of Saturn through the astrological houses and specifically the \square Angles, \square (Ascendant, I.C., Descendant, and Midheaven) represents one of the most accurate and telling of all astrological factors.

Saturn signifies the physical form as it emerges through time after birth, reaches our \square Prime, \square and then begins to fade. This is usually divided into three cycles of thirty years each.

I like to think of the first thirty years, while Saturn is building our physical body and form, as the time when we each build ourselves a space capsule as well as we can, as solidly as possible \square our body.

Then after the age of thirty, we are launched into outer space. Time as we knew it ends and we begin the next Saturn cycle and are born beyond time. My teacher told me that in that second cycle we each repair the damage we made during the first cycle and during the process of being launched.

And finally, in our third 30-year cycle, it was explained to me that we can consciously and actively participate in the creative life force, literally shaping life in those younger than ourselves. I hope you have enjoyed your report.
